List of Janya ragas

Janya ragas are Carnatic music ragas derived from the fundamental set of 72 ragas called *Melakarta* ragas, by the permutation and combination of the various ascending and descending notes. The process of deriving *janya ragas* from the parent *melakartas* is complex and leads to an open mathematical possibility of around thirty thousand ragas. Though limited by the necessity of the existence of individual *swaroopas* (unique identities) for the *janya* ragas, a list is never comprehensive or exhaustive. Thus the list below is open to additions or corrections. Moreover, some musicians experiment and use new scales, leading to new *janya* ragas. The 72 *Melakarta* ragas are numbered according to the ancient Indian system for numerical notation — the *Katapayadi system*.[1][2]

Melakarta Ragas

The *melakartas* are listed by numbers 1-72, with corresponding *asampoorna melakarta* names[3] and scales listed just below (if different, in bold). Under those musical scales are the *janyas* associated with each *melakarta*. If the raga has multiple scales in the same *janya*, these are given below the main scale. Other *janya* ragas that are either not associated with a *melakarta* or whose scales are not yet added in this list, are listed at the bottom.
